

VINYL SHOWER PAN LINER

In 1965 *PASCO* was the first company to introduce a plastic shower pan liner for ceramic tile showers. Since that time, over 40,000,000 square feet of our shower pan liner has protected hundreds of thousands of ceramic tile showers.

We led our industry in developing a nationally recognized product standard for shower pan liner. Furthermore, we led the way in developing and implementing the installation standards for the plumbing code bodies throughout the United States.

PASCO Vinyl Shower Pan Liner has served and continues to serve the plumbing trade like no other product.
